Professional Summary

Aspiring Software Developer with a foundation in Python, web development, and database management. Familiar with Flask, React.js, REST APIs, MySQL, JavaScript, HTML, CSS, and Bootstrap. Gained practical experience in frontend development through a Web Development Internship at CodSoft and developed projects including a Marathi-first Police Bharati Student Learning Platform and a Campus Placement Management System. Interested in building responsive, user-friendly web applications and improving technical skills through practical problem-solving and continuous learning.

Experience

CodSoft Kolkata, West Bengal
Web Development Intern *Aug 2024*

- **Frontend Development**: Developed three frontend projects during the Web Development Internship, including a personal portfolio, landing pages, and a calculator using HTML, CSS, and JavaScript.
- **Responsive Web Design**: Created interactive and user-friendly web interfaces with a focus on responsive design, webpage layout, and usability.
- **Personal Portfolio**: Designed and developed a personal portfolio website to present information through a structured and user-friendly web interface.
- **Landing Pages**: Built landing pages using HTML, CSS, and JavaScript to create organized layouts and interactive user interface elements.
- **Calculator Application**: Developed a calculator project using HTML, CSS, and JavaScript to implement basic calculations and interactive functionality.
- **Technical Skills**: HTML5, CSS3, JavaScript, Responsive Web Design, Frontend Development

Projects

Police Bharati Student Learning Platform

- **Project Overview**: Developed a Marathi-first web platform for Maharashtra Police Bharti aspirants, featuring digital study resources, online tests, and progress tracking.
- **Backend and Authentication**: Built RESTful APIs using Flask, SQLAlchemy, and MySQL, implementing JWT authentication and role-based access control for 2 user roles: students and administrators.
- **Learning Modules**: Implemented 6+ learning resource categories, including subject-wise notes, PDFs, educational videos, previous-year questions, current affairs, and recruitment notices.
- **Testing and Progress Tracking**: Developed online test workflows, result tracking, rankings, student dashboards, and physical training progress monitoring. Added automated backend tests for API behavior, authentication, and data persistence.
- **Tech Stack**: Python, Flask, React.js, MySQL, SQLAlchemy, REST APIs, JWT, HTML, CSS, JavaScript

Campus Placement Management System

- **Project Overview**: Developed a web-based placement management system for students and placement officers to centralize placement activities and improve communication.
- **Student Management**: Implemented student registration and profile management to organize student information.
- **Placement Tracking**: Developed placement tracking and announcement features to keep students informed about placement activities and updates.
- **Administrative Operations**: Implemented administrative features to manage placement activities and streamline routine tasks.
- **Tech Stack**: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, XAMPP

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, Java, C, C++
- **Backend Development:** Django, Django REST Framework, Flask, RESTful APIs, API Integration, PHP
- **Authentication and Security:** JWT Authentication, RBAC, Request Validation, HTTP Error Handling
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, React Router, Axios
- **Databases and ORM:** PostgreSQL, MySQL, MongoDB, SQLAlchemy, Flask-Migrate
- **DevOps and Cloud:** Docker, Kubernetes, Azure Cloud, Azure DevOps
- **Development Tools:** Git, GitHub, Postman, Linux, Visual Studio Code
- **Core Concepts:** OOPs, Data Structures, Algorithms, Database Design, REST API Design, System Design, Data Analytics

Education

Government College of Engineering, Chandrapur Chandrapur, Maharashtra
B.Tech Computer Science & Engineering (CGPA: 8.53) *2022 – 2026*
